***Allowable Subject Matter***

Applicant's amendment of 04-19-04 has been considered. The terminal disclaimer has obviated the previous double patenting rejection. The amended claims have overcome the previous rejections of 112/1<sup>st</sup> and 2<sup>nd</sup> paragraphs, and thus said rejections are withdrawn herein. The amended claims have also rendered moot the previous 102(b) rejection based on **Chen** (WO 95/33750) by the deletion of “C<sub>1</sub>-C<sub>6</sub> alkyl” from the definition of R<sub>1</sub>, and so, that rejection is withdrawn as well.

With no other outstanding rejection, claims 1-34 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

An update search yields the reference of **Scheiblich et. al.** (U.S. 6,130,188), which generically teach a group of substituted pyridinyl compounds as claimed herein. However, its preferred embodiment and species do not teach a pyridinyl compound with a substituents corresponding to the instant variable “B”. Thus, there is no motivation to select the claimed compounds from the disclosed genus for a *prima facie case of obviousness*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
